The Islamic Egyptian Society of NSW, Australia  
Condemns the massacre carried out by Israel against the Palestinian people.

The Australian Egyptian Muslims join our fellow citizens who respect International law and the sanctity of human life in repudiating and condemning the massacre being carried out by Israel against Palestinian civilians who already suffering from the blockade and years of misery and impoverishment.

We call on the Prime Minister Mr Kevin Rudd and World leaders to take direct action to end Israel's counterproductive and widely disproportionate attacks and to end the humanitarian siege of Gaza, which led to the recent breakdown of the ceasefire.

As the EU foreign policy chief Javier Solana said the Israeli attacks were "inflicting an unacceptable toll on Palestinian civilians and will only worsen the humanitarian crisis as well as complicate the search for a peaceful solution".

We, specially, call on the Arab and Muslim leaders to act swiftly, to show genuine Leadership by taking a united stand to stop this long and continual aggression and crimes against humanity conducted by Israel against the Palestinian People. We urge them to lead the free world to free the Palestinian people, to give them the strongest support for the return of their lands.

Mohammed Helal  
Secretary

On behalf of the executive committee and members of the Islamic Egyptian Society  
of NSW, Australia
