***Press Release***

**The Islamic Egyptian Society of NSW Inc.**

**Condemns the horrific and abhorrent Terrorist attacks in France,  
Lebanon and Turkey**

On behalf of the members of the Islamic Egyptian Society of NSW we convey our sorrow and grief for the innocent lives that have been lost during the barbaric and brutal attacks in Paris, France against innocent civilians.

We extend our thoughts and sincere condolences to the families of the victims and to those who are grieving. Our prayers for the families of those killed and injured and for the people of France.

We also re-iterate our condemnation to the terror attacks in Lebanon and Turkey where innocent lives were lost to similar terror attacks. Those who carried these criminal and horrific acts have no regards to human life and committed a crime against humanity

We also wish to state that Islam condemned aggression against innocent people; the killings of innocent people are acts that contravene all the Islamic religion's values and human civilized concepts. .

The holy Qur'an states that: "killing a single soul without right as killing all the people of the world, and reviving a single soul as reviving the people of the whole world" (AL Maidah 5:32).

The Society is condemning all forms of terrorism and we pray to almighty Allah to have mercy on the souls of all the innocent people that have been killed in this barbaric act.

Dr Mohamed Helmy

President
